School Crisis Prevention and Intervention Training

The PREPaRE curriculum has been developed by the National Association of School Psychologists as part of NASP's long-term leadership in supporting and developing school crisis prevention and response capabilities at the local level.

Schools play a critical role in meeting the needs of students, staff, families and often the local community during times of crisis. They must have crisis plans and trained teams in place to serve this function effectively within the unique context of the school culture. PREPaRE 1 focuses on crisis planning; PREPaRE 2 focuses on crisis intervention and recovery and will be offered in late spring 2014.

PREPaRE is the only comprehensive curriculum developed by school-based professionals with firsthand experience and formal training. The curriculum builds on existing personnel, resources, and programs; provides for sustainability; and can be adapted to individual school needs and size.
